Research Title : Setvalued perturbed hybrid integro-differential equations and stability in terms of two measures  
Setvalued perturbed hybrid integro-differential equations and stability in terms of two measures

Descriptipn : We study some stability criteria in terms of two measures for setvalued perturbed hybrid integro-differential equations with fixed moments of impulse. Stability properties of perturbed system are obtained via a comparison result which connects the solutions of perturbed system and the unperturbed one through the solutions of a comparison system.

Research Type : Article

Research Year : 2007

Publisher : DYNAMIC SYSTEMS AND APPLICATIONS Volume: 16 Issue: 2 Pages: 299-310
